In this activity you will have to decide if the potential jurors listed below will be fair for this case. Referring to a copy of the Sixth Amendment, remind yourself of the importance of the right to a fair trial that the Constitution guarantees.

The case is between the plaintiff (Sharon Franks) and the defendant (Express Car Repair). The plaintiff is suing the defendant because she claims she brought her car to Express Car Repair for an oil change and the repair shop damaged her car. Based on the jurors' answers, list advantages or disadvantages for the plaintiff and the defendant. Will this juror be fair and impartial and up to the standard set by the Constitution? List whether the answer given indicates bias or impartiality. Then decide whether each person should be on the jury.

Voir Dire

Lawyers are charged with selecting an impartial jury through a process known as voir dire. During voir dire, lawyers interview the jurors to try to discover any bias or prejudice that could affect their ability to be fair and impartial. It is the judge's responsibility to excuse any biased jurors. It is important that the jurors be able to decide a verdict based on the evidence. Jurors cannot allow any strong opinions about the issues or preconceived notions about either the plaintiff's claims or the defendant's defense to bias their judgment. Jurors should decide a case on the basis of the evidence they hear and see during the trial, not on strong emotional feelings in favor of or against one of the parties.
